## **Objective**

A systems analyst consultant to organizations with an extraordinary record of streamlining processes, exceeding operational goals, and executing very effective implementations of a wide array of technologies with a distinct emphasis on World Wide Web integration into daily activities and procedures.

## **Experience**

### **Chief Executive Officer Sanity LLC**

1990 - Present

Provide Project Management and performs tasks associated with the lead programmer position. Uniquely qualified and effective due to three decades of technology integration, two decades of implementing web technologies, and a pursuit of higher education to better understand organization needs.

### **Chief Information Officer & Chief Operations Officer Global Wow Marketing LLC**

2013 - 2015

Provide oversight in the integration and operation of various internet-based technologies in day-to-day operations, programming expertise utilizing Internet technologies, and supervision of day-to-day operations.

### **Author: *MODX Revolution: Building The Web Your Way* (September 2012)**

2012 - Present

An extensive look at an amazing and extensible Content Management Framework while providing real-world examples and hundreds of screen shots to bridge the gap typically experienced by users when pressing into new concepts and systems. The first section is geared for a classroom environment.

### **Content Management System Documentation Team**

2005 - Present

Provide code samples and documentation for next generation Content Management System set to debut in mid 2011, utilizing xPDO / PDO database objects, PHP 5.3 +, MySQL and related converging technologies.

### **Technical Analyst, Computer, Web, and Internet: G.W. Schultz Tool**

2004-2008, Tavares, FL

Effectively analyzed and implemented solutions to provides a 300% reduction in product delivery time. The entire inventory with thousands of items was turned into a full production web site with live ordering, a sales representative portal, and a emphasis on protecting a large amount of proprietary information.

### **Web Site Migration: World Wide Stationery Mfg. Co., Ltd.**

2000-2008, Dongguan City, China

Instrumental in the development and implementation of 3ringmetals.com to brand the name of the worlds largest manufacturer of ring metals into the single dominating force on the internet achieving millions of hits and thousands of images and pages index into every major search engine, and many of its competitors scrambling to respond to the innovations achieve on the first web site of its kind in its industry. I had the pleasure of working with the famous racing legend, Russ Truelove, for the duration of this project.

### **Computer, Web, Network, and Audio: Living Faith World Ministries**

2000-2010, Daytona Beach, FL

Established computer networks, security, and domain controls for all computers utilized in the facility in matching with the vision statement and planned goals for the ministries growth. When Living Faith purchased a new building, I was brought in to over see all aspects of the integration of technology as I had done at the previous facility. This included multiple venues, an office building, as well as a pre-k through elementary school.

## **Expertise**

Systems Analysis  
Problem Solving  
Structures, Web Design  
Context, Database Abstraction  
Goal Analysis
